Accessing ERIC Documents

Notice the (ED466 378) in the third example. The ED stands for "ERIC Document." Click on the title to pull up the *abstract* (summary of the article). ERIC Documents are in the **ERIC Documents** microfiche cabinets on the fifth floor of the Houston Cole Library. Use the Eric Document number to locate them.

● Accessing the full text of ERIC Documents

Selected ERIC Documents (from 1993-present) are available in full text online by clicking on the link Full text from EDRS (see the bottom of the ERIC Document record below). About "92% of the documents abstracted in ERIC (since January 1993) are available from EDRS" (ERIC). **Selected** documents prior to 1993 are also available in full text.

Please note! The EDRS server is often busy and it may take several tries to access the full text. If you retrieve a screen that asks you to pay for the document, try the service later. You might also check to see how many page numbers the document contains. Dissertations with three hundred pages may not be available in full text online. The only way you can tell if the document is available in full text is to click on Full text from EDRS.

● Reading an ERIC Document Record

Look at the following example of a full record for the ERIC Document below. Some ERIC Documents are books and dissertations with hundreds of pages. Therefore, before you click on "**Full Text from EDRS**" make sure you look closely at the following information:

- ✓ **Publication Type** (the publication below is a *research report*)
- ✓ **Pagination** (the publication below has 19 pages)
